E. EXCEL PRODUCT GUIDE

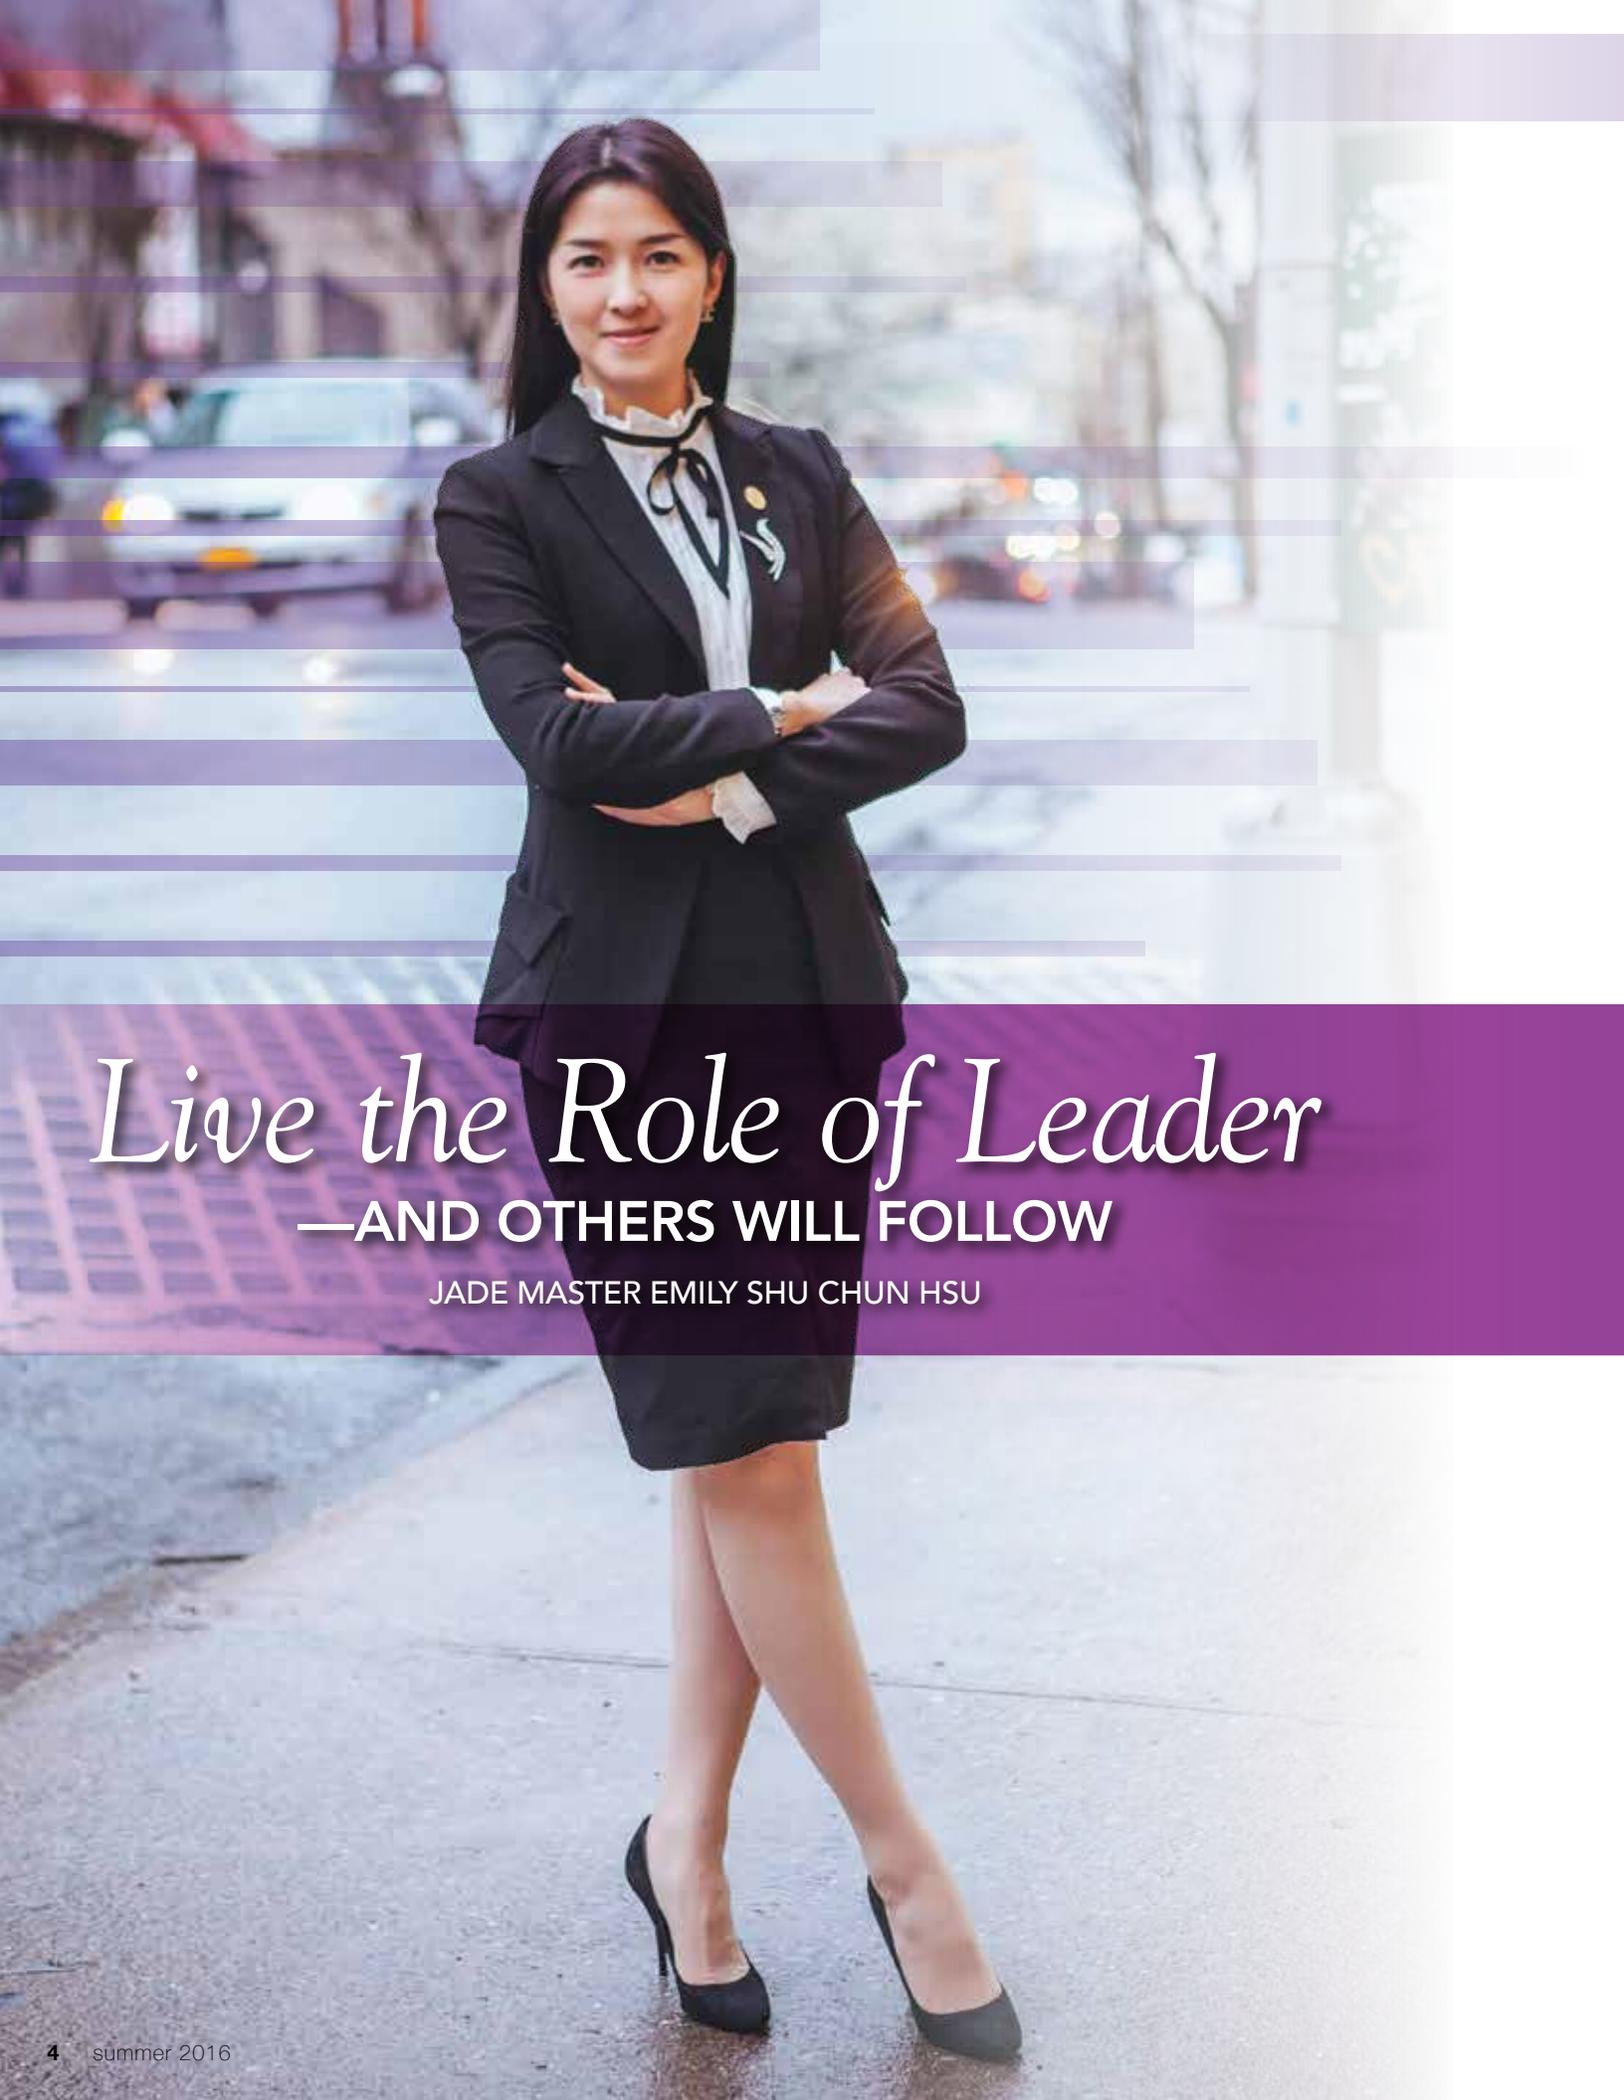

New Jade Ambassador, Daisy Kang!

Please help us congratulate, Daisy Kang, E. EXCEL's newest Jade Ambassador! Members of her group point out that she has a strong belief in E. EXCEL and Nutritional Immunology, and lives a healthy, happy lifestyle with little stress. However, she is persistent—especially when it comes to helping others understand and enjoy better health and how the E. EXCEL opportunity can create a prosperous business for them. Daisy is living her richer life as an E. EXCEL Ambassador! Congratulations, Daisy!

CONGRATULATIONS

Live the Role of Leader

—AND OTHERS WILL FOLLOW

JADE MASTER EMILY SHU CHUN HSU

With a growing, vibrant group behind her, Jade Master Emily Hsu is every bit the vision of an up-and-coming young business woman. From the moment she joined E. EXCEL, she began attending meetings, learning skills, and working toward becoming an accomplished leader. And, as her recent advancement to Jade Master will attest, her leadership skills are well honed.

As a member of SS Network in New York, Emily received excellent training from Jade Masters Amy Choong and Choong Ng and learned to dress, act, and talk like a leader. Today, that training continues to benefit her as she mentors those in her own organization.

Emily began her E. EXCEL career with one clear goal in mind. She wanted to make her family proud of her. That was her goal when she originally came to the United States from Taiwan many years ago. Her family faced financial difficulties in Taiwan, requiring all to pull together to make ends meet. Emily came to the US to try to earn more money. She needed to be successful for her family's sake. It was a hard struggle, until she found E. EXCEL and understood what it could do for her. Once she realized that E. EXCEL could make her dream come true, she began to work. In 2015, for the first time in years, Emily was able to travel back to Taiwan to see her family again. She returned home as a successful, accomplished, business owner.

With her own group, Emily stresses several things:

Meeting and Training Sessions

Attend as often as possible; participate as much as possible. You can never know too much, and you can always learn more.

Follow Your Leader

Your leader has a vested interest in helping to make you successful, but if you do not follow them and duplicate the path that led to their success, they don't have the opportunity to help you.

Help Your Downlines Become Leaders

Building strong Downline leadership is one of the best ways possible to create the exciting,

growing business you need to become successful. As those in your group succeed, so do you, so work as hard for them as you do for yourself.

Don't Waste Time on Negativity

Negativity is a destructive force that can destroy a group from within. Concentrate on the positive and keep your group focused on those aspects that uplift and elevate rather than tear down and destroy.

Above all else—BELIEVE!

Believe in yourself. Believe in E. EXCEL. Believe in what you are doing. Believe that you can duplicate your Upline's path to success, and believe that you can be successful—because you can, with hard work and a strong belief.

“Before E. EXCEL, I was just doing my job, day by day, and was losing sight of my dream. E. EXCEL was a wake-up call for me!”

“Before E. EXCEL, I was just doing my job, day by day, and was losing sight of my dream. E. EXCEL was a wake-up call for me!” Emily said. “Now, I’m living a richer life. I have learned so much about how E. EXCEL and Nutritional Immunology can change people’s lives. I’ve seen it change mine! Ultimately, I want to bring E. EXCEL to my whole family for generations to come. I want them to be proud of me!”

Her family has every right to be proud of Emily! Today, she talks the talk and walks the walk of a confident, poised, E. EXCEL business leader who attracts like-minded individuals to her ever-growing team of E. Excellers.

“Now, I’m living a richer life. I have learned so much about how E. EXCEL and Nutritional Immunology can change people’s lives. I’ve seen it change mine!”

BUILDING

Skills

as a Professional E. EXCEL Business Owner

Pearl Master Wen Ting (Wendy) Song

“My life changed forever when I attended E. EXCEL’s Travel Incentive Trip to Las Vegas. When I saw how E. Excellers from all over North America were reaching financial freedom, I thought if they could do it, I could do it. I went to work to win the next exciting Heart of Europe Incentive Trip. It was fantastic!”

Wendy Song works as a marketing researcher and an educator for the school board and loves both jobs. She embraced E. EXCEL’s opportunity to use her experience and talents to build a part-time business. “I love that I can work full-time to provide for my family, and work part-time with E. EXCEL to build my fortune. I’m already seeing it grow exponentially with motivated business builders on my team who want to win the incentive contest like I did last year.”

Wendy’s Upline leader Jade Ambassador Daisy Kang saw tremendous potential in Wendy. She also saw it as a great opportunity for Wendy to travel to Las Vegas and experience the thrill of an E. EXCEL vacation. Daisy’s team had the most winners on the Europe trip because she believes winning trips consistently

7 Necessary Skills for E. Excellers

- 1 Prospecting and adding constantly to your contact list
- 2 Inviting effectively
- 3 Presenting a compelling story
- 4 Following up as many times as necessary
- 5 Closing successfully
- 6 Starting your new E. Excellers with an action plan
- 7 Building commitment through events

every year is a fantastic way to build a business. After winning the Europe trip, Wendy is working extra hard to make sure that she and her team go to Mexico this year.

An injury brought Wendy to E. EXCEL. She took the products and saw dramatic improvement. Immediately she began sharing them with her friends and family. What's even more exciting, because of Wendy's professionalism and excitement, she started attracting business builders to her group.

"I owe a lot to the training I have received in business-building skills. I needed to become skillful at prospecting, being outgoing and giving, and adding constantly to my contact list. I learned a professional, simple way to invite people to look at E. EXCEL. Before, many people I invited didn't show up. Now I'm getting serious prospects who follow through, attend meetings, and go to work.

"I honed simple presentation skills for sharing the E. EXCEL opportunity, not just Nutritional Immunology and products. I learned to share my story and get people excited about the richer life E. EXCEL offers. Now I understand how important follow up is. The best people require many calls to build trust before they decide to get

involved. This business is about relationships, and follow-up calls and contacts build relationships.

“Learning how to close has helped me get more people making decisions to join as COEs on my team, and getting new people started with an action plan helps launch my new business builders and get them sponsoring right away. They become confident E. Excellers much faster than I did, and they know how to duplicate effort to build and grow.

“My confidence has grown tremendously from taking the time to take action and develop these skills. Sharing E. EXCEL without preparation is discouraging and limits success. Preparing my people skills saved me a lot of time and helped me train my team quickly.

“Winning contests and traveling together is not optional for us. It’s the lifeblood of our business and our ticket to tremendous success with E. EXCEL.”

Closing Questions that Work

- How much money do you need to make?
- How much time are you willing to invest?
- Are you willing to work?
- If I can show you how you can make money, will you commit?

My confidence has grown tremendously from taking the time to take action and develop these skills.

“Building an E. EXCEL business is spelled W-O-R-K. Like anything else, it takes sacrifice. I schedule my time, make the calls, check my social media, prepare trainings, and hold meetings with my new business builders. But, it’s enthusiastic and satisfying work because I’m helping my team grow. I’m helping people become healthy and achieve their richer life.”

In the first three months of the ALL IN contest, Wendy earned enough points to win First Prize, but she didn’t stop there. As a Grand Prize winner, she’s bringing her whole family to Mexico this summer! She also worked hard to help her team members win! “We are a team of winners,” shouts Wendy. “Winning contests and traveling together is not optional for us. It’s the lifeblood of our business and our ticket to tremendous success with E. EXCEL.”

Protect Yourself with

CACTUS

Inside and Out

Summer brings plans to enjoy the warm, sunny weather, but planning activities outdoors ultimately requires planning skin protection and recovery. Protecting our skin, and our loved ones, shouldn't be an afterthought but a priority. Sun exposure at the least can cause skin dryness and at most sunburn or worse. Though we should all remember to wear sunscreen, E. EXCEL products can help your skin rehydrate and recover even when you forget!

The Opuntia or prickly pear cactus, like other cacti, has multiple uses that enhance your health. Like other species of cacti, the prickly pear adapted to combat natural assailants like harsh sunlight, drastic temperature changes, and drought. Because of these properties, E. EXCEL found this extract to be perfect for *Elemente® Cactus Essentials* beauty products. *Cactus Essence Hydrating Facial Lotion*, *Cactus Essence Aqua Gel Facial Moisturizer*, and *Cactus Essence Facial Pore Refining Cream* all use the properties of this cactus extract to the fullest.

Cactus Essence Hydrating Facial Lotion

- Forms moisturizing, protective film for long-lasting hydration
- Suitable for all skin types
- Excellent for nighttime skin care

Cactus Essence Facial Pore Refining Cream

- Provides a flexible netted structure of polymers that adhere closely to the skin to provide excellent coverage
- Suitable for all skin types, especially sensitive skin

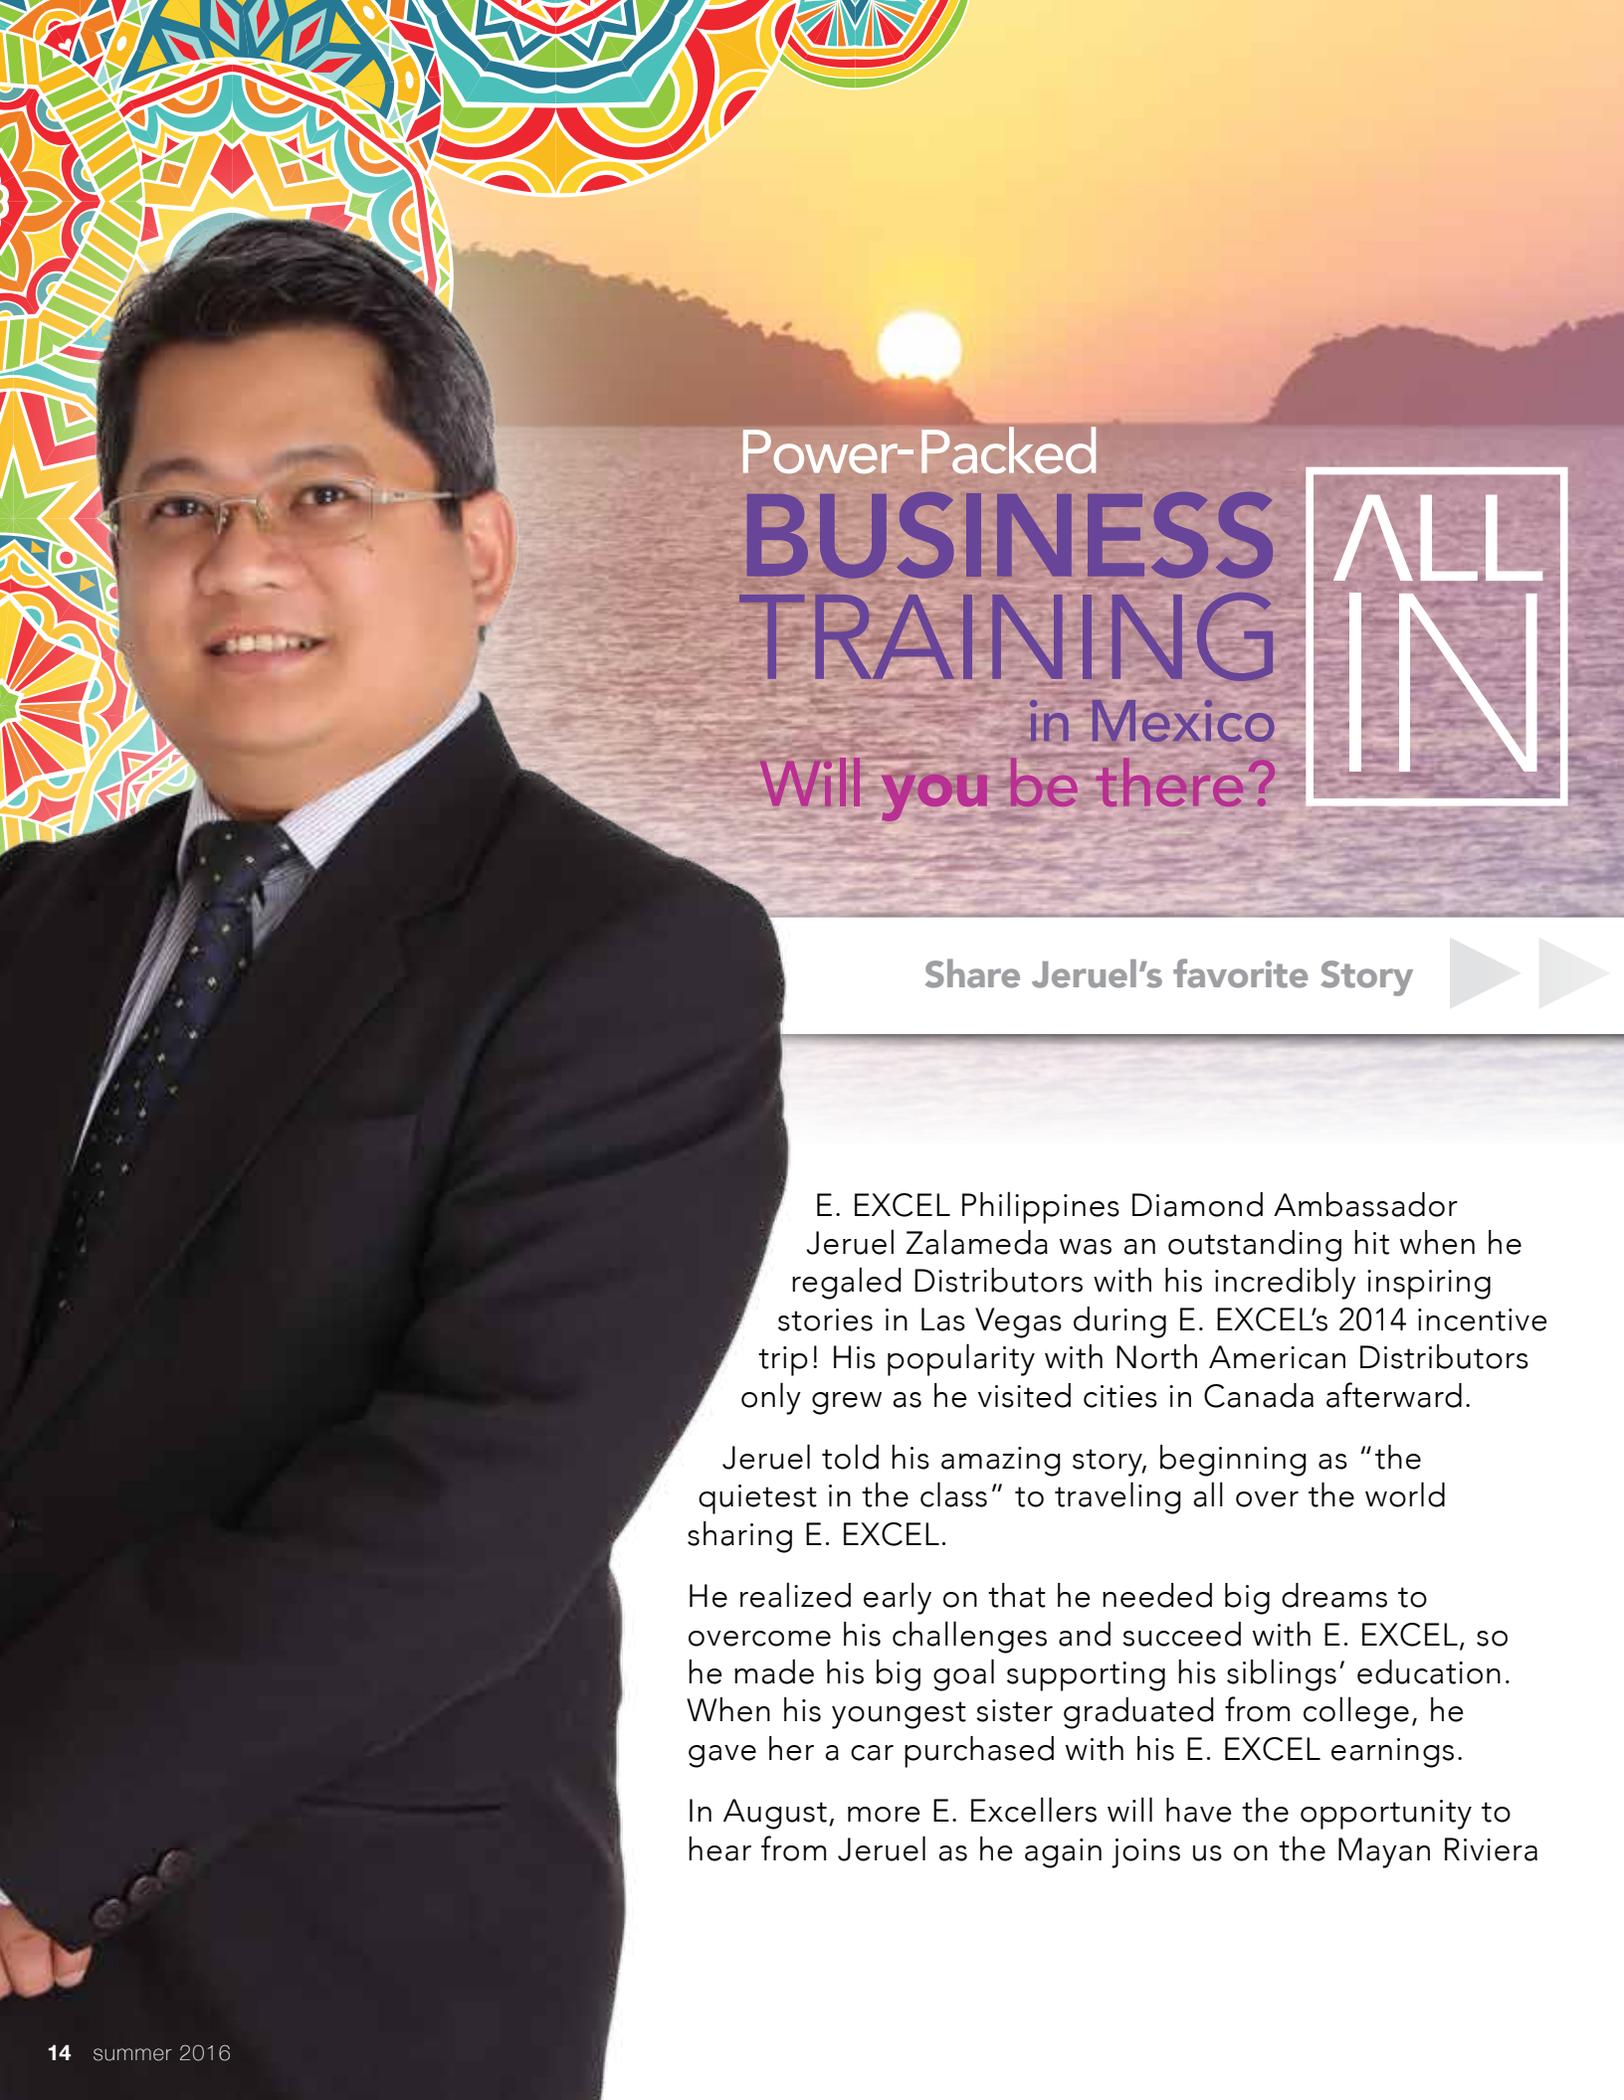

Cactus Essence Aqua Gel Facial Moisturizer

- Hydrating particles form a protective barrier in a unique netted structure, locking in moisture and releasing nutrients for long-lasting hydration
- Suitable for all skin types, especially sensitive and acne-prone skin
- Excellent for daytime skincare

Recent research shows that a diet high in antioxidants is one of the best ways to protect ourselves from free radical damage to skin cells. E. EXCEL offers fantastic sources for you to easily include antioxidants in your diet. We offer many products rich in antioxidants from cactus extract, such as

Millennium® and *Celebration™*. Others with antioxidant support include *Vision™* and *Nutricardia™*.

Remember, cactus works on the inside as well as the out—and with E. EXCEL, we've got you covered!

Share Jeruel's favorite Story

E. EXCEL Philippines Diamond Ambassador Jeruel Zalameda was an outstanding hit when he regaled Distributors with his incredibly inspiring stories in Las Vegas during E. EXCEL's 2014 incentive trip! His popularity with North American Distributors only grew as he visited cities in Canada afterward.

Jeruel told his amazing story, beginning as "the quietest in the class" to traveling all over the world sharing E. EXCEL.

He realized early on that he needed big dreams to overcome his challenges and succeed with E. EXCEL, so he made his big goal supporting his siblings' education. When his youngest sister graduated from college, he gave her a car purchased with his E. EXCEL earnings.

In August, more E. Excellers will have the opportunity to hear from Jeruel as he again joins us on the Mayan Riviera

The Most Sought After Speaker in Manila

"I believe E. EXCEL is a great equalizer. One of my Downline who has no education, only about up to 4th grade, is actually just a sales woman in the street in Manila, okay, and that's not legal. Every time she sees a police officer, she packs up everything and she runs. She can speak no Tagalog, no English, and the problem is, she was saying, "Jeruel, how could I learn E. EXCEL? Everything is in Chinese or English." So, I translated everything to her. She was 50 years old. She got to know everything about

E. EXCEL. I told her, "Please, Attay, become a speaker." She mastered everything—the product, Nutritional Immunology, even the marketing plan, until the point that she became the most sought after speaker in Manila. And, one time I heard she conducted a seminar in a room full of doctors. How could you do that? I don't even want to attempt to do that. And, I heard three or four doctors signed up under her. You see that's how good, how E. EXCEL can transform the lives of people."

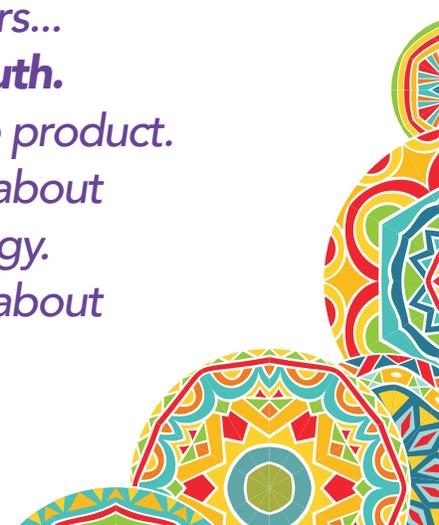

with the winners of the ALL IN contest! Jeruel agrees the best time to do E. EXCEL is now! He'll share success stories and his enthusiasm for E. EXCEL North America. "Do you want remote business management 24/7? I do it every day with EVO, E. EXCEL's Virtual Office. No other E. EXCEL company in the world has such a powerful, comprehensive set of reports to track and

manage your E. EXCEL business!" The incredible training and motivation that Jeruel brings is another in

a long string of reasons to participate and win E. EXCEL travel incentives!

*Jeruel tells E. Excellers...
"Just open your mouth.
Number 1, to eat the product.
Number 2, to speak about Nutritional Immunology.
Number 3, to speak about the opportunity."*

NUTRITIONAL IMMUNOLOGY

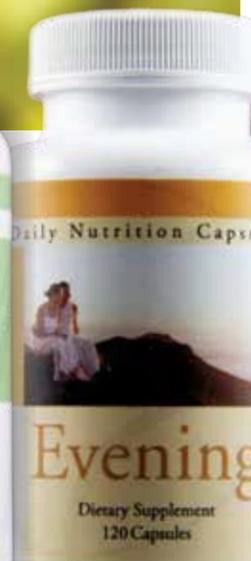

WAIT

Vegecolor™ Chopping up vegetables takes so much time. **Vegecolor** does it for you with **25 fruits and vegetables** perfect for adding to anything you are cooking for greater nutrition.

Morning and Evening™ Capsules

Morning and Evening capsules come exclusively in Daily Nutrition Packs. *Morning* gets you started with **19 herbs and vegetables**, while *Evening* gives you **22 plant foods!**

The World Health Organization Agrees

DIVERSITY IS THE KEY

1-SHAPE™

You'll find **14 different plant foods** in 1-SHAPE, along with an excellent way to help you maintain a healthy weight.

1-SHAPE™
botanical beverage mix
Boisson à base d'extraits botaniques

Net Wt. 18 oz / Poids 540g

Ashitaba (*Angelica keiskei*)

Supplies excellent antioxidants, contains eleven vitamins, thirteen minerals; historically referred to in Japan as the "longevity herb."

Lion's Mane Mushroom (*Hericium erinaceus*)

A choice edible mushroom; contains polysaccharides that support the nervous system and cognitive function.

Pumpkin Flower (*Cucurbita pepo*)

Source of magnesium, phosphorus, potassium, vitamin A, and folate.

Oriental Lotus Leaf (*Nelumbo nucifera*)

Contains antioxidants that may help with cardiovascular health; may help increase coronary blood flow and lower blood pressure.

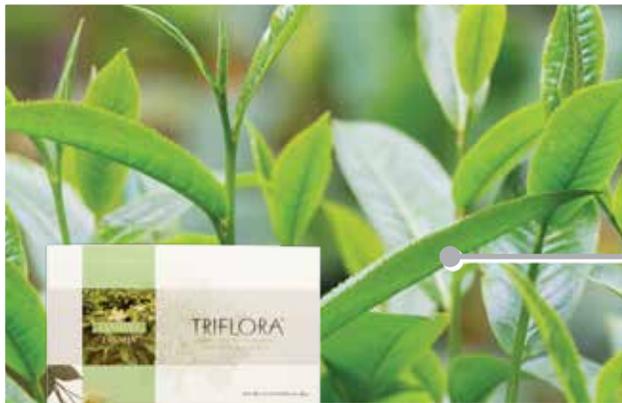

Turkey Tail Mushroom (*Trametes versicolor*)

Contains polysaccharides that support the immune system and promote Natural Killer cells; supplies potassium, iron, and fiber as well.

White Mulberry Leaf (*Morus alba*)

Contains phytochemicals that slow the breakdown of sugars in the gut for slower absorption into the blood stream, thus helping maintain blood sugar levels in the healthy range.

Green Tea Leaves (*Camellia sinensis*)

Catechins are antioxidants that fight cell damage. Green tea is rich in catechins.

Bitter Melon (*Momordica charantia*)

Used as a vegetable in India and other Asian countries and as an ingredient in some kinds of curries; contains a phytochemical that acts like insulin to help maintain healthy blood sugar levels.

E. EXCEL products' vast variety of wholesome ingredients is rival to none!

SETTING GOALS

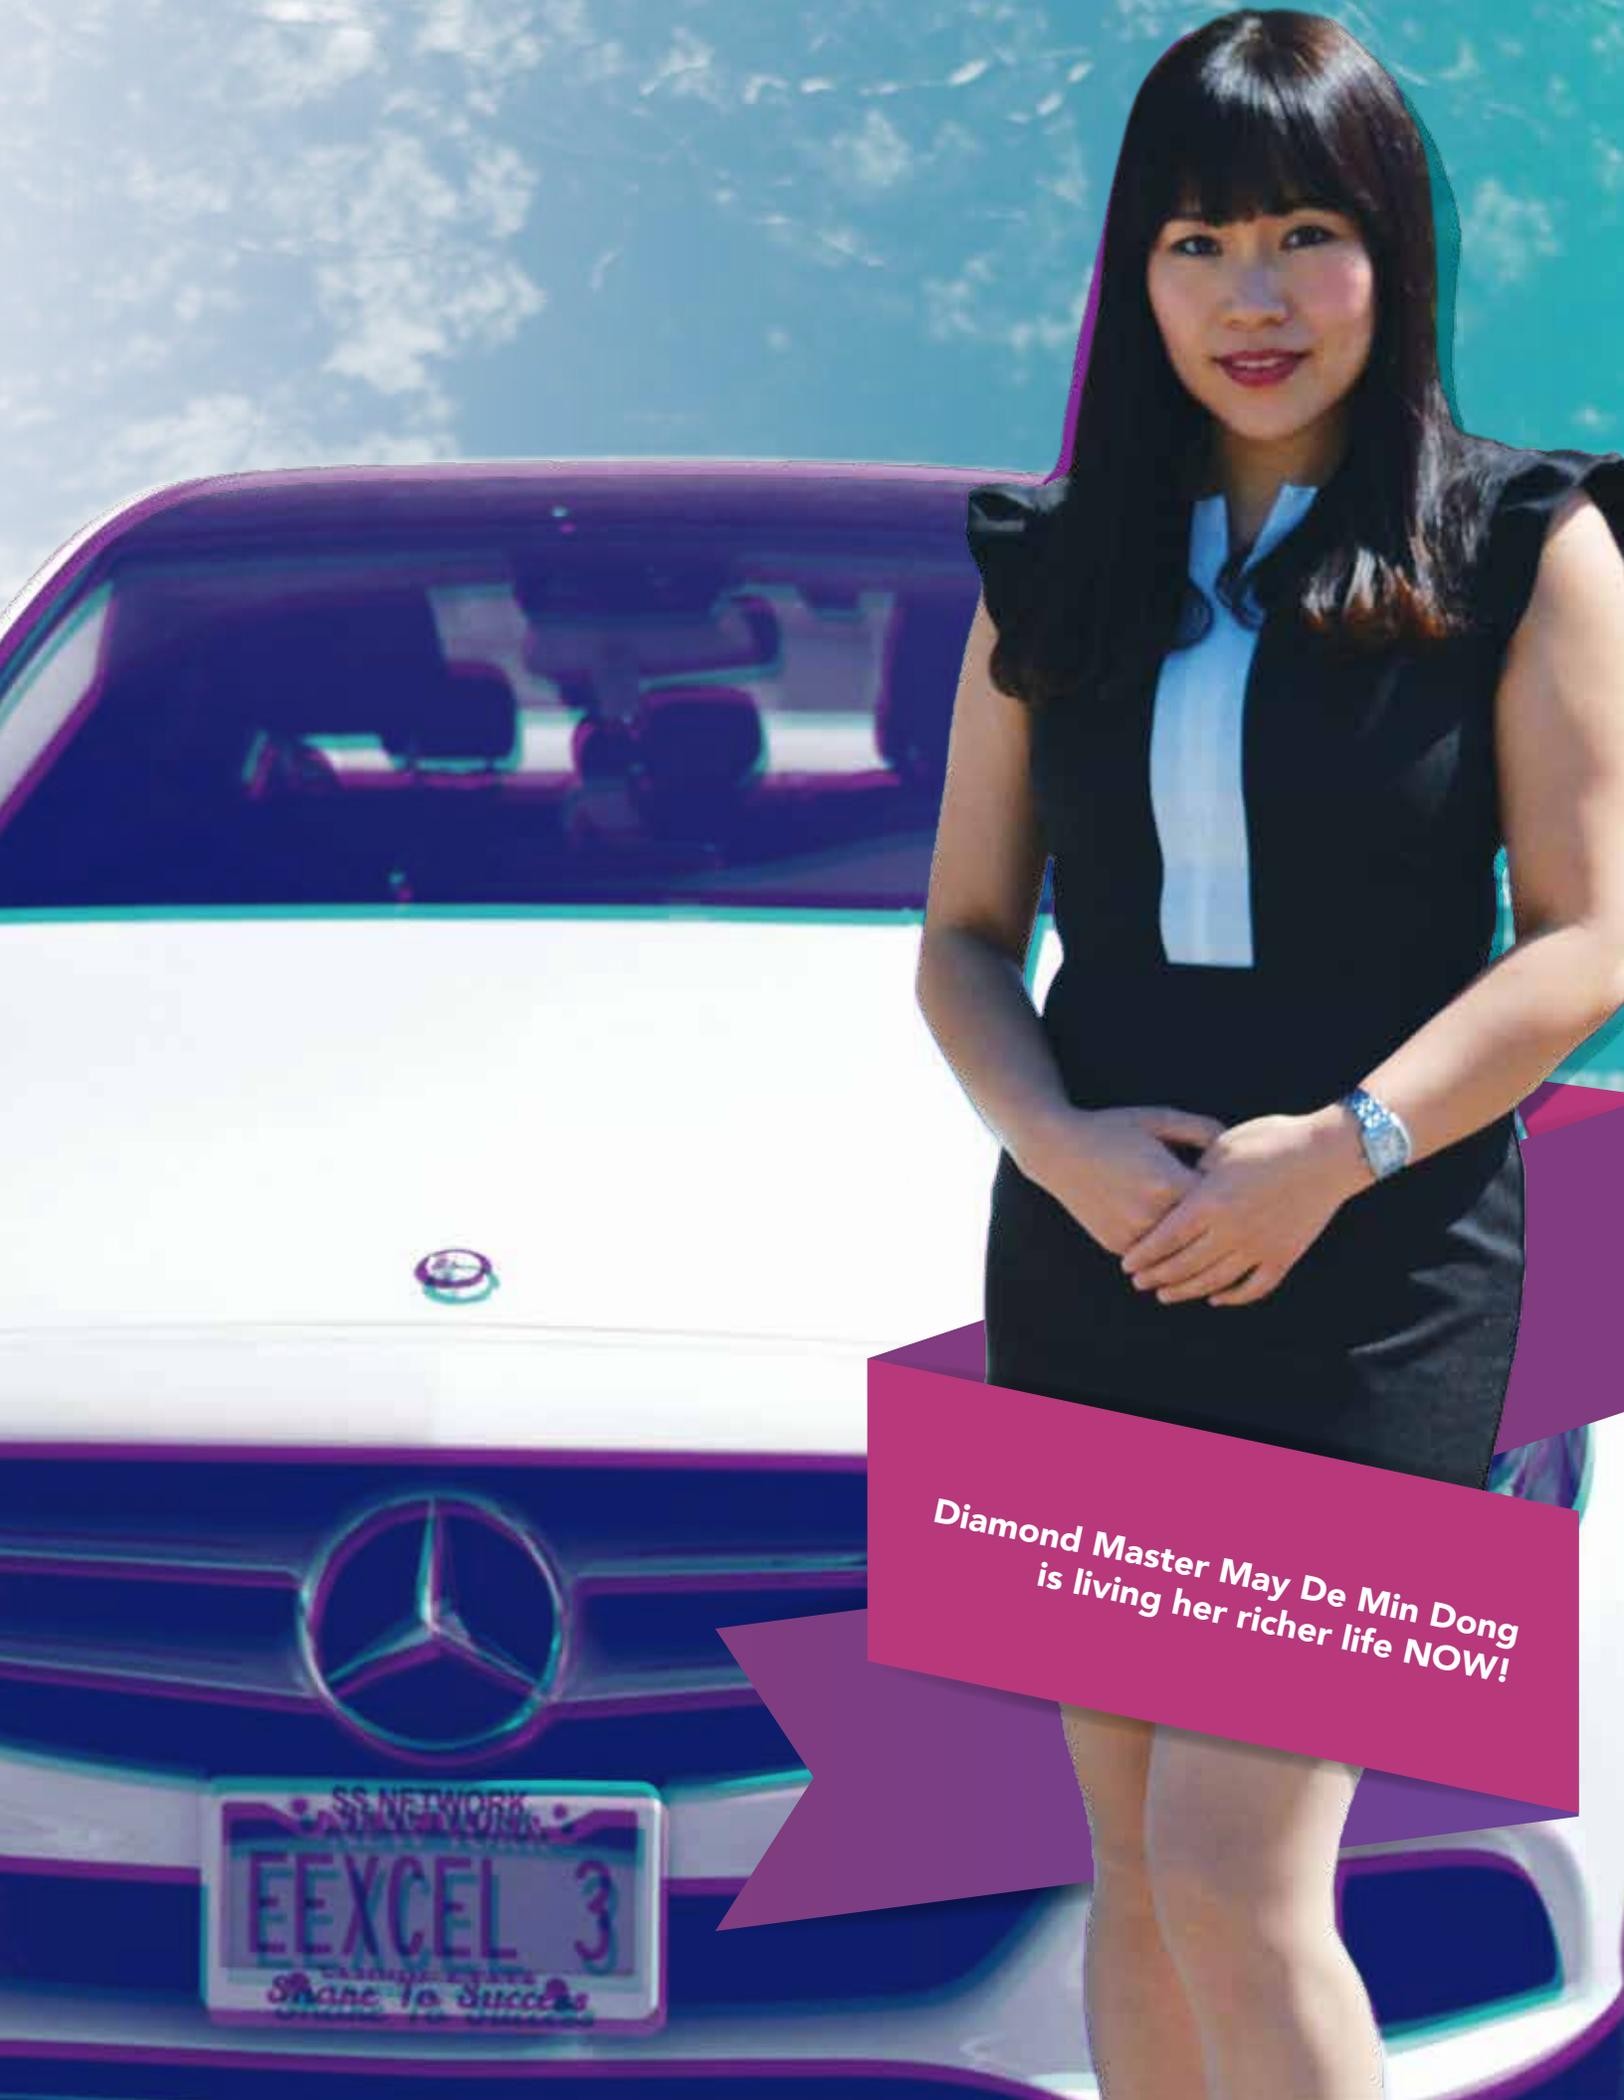

Helps You Reach Your Dreams

Diamond Master May Dong of New York recently achieved a major goal she set for herself—buying a Mercedes-Benz! We asked her about setting and achieving goals and how it felt to reach another major milestone. She told us, “Before I bought the car, I set a big target, a goal, to become a Diamond Master, and then buy a luxury car to reward myself. At the same time, I set another goal to help six of my Downlines set small targets of their own to become Masters.

**With the right attitude,
I changed myself and
changed my life.**

“A target is not simply a dream. Many people have dreams, but they don’t set goals to reach it efficiently. You have to set goals so you know where you want to go. Write your dream down on paper and review it 10-20 minutes every morning and every evening. Write it at least 20 times, so you remind yourself daily of your goal. Then, set a time limit within which you will reach your goal. Finally, your target must be accurate and measurable.

**Diamond Master May De Min Dong
is living her richer life NOW!**

STEPS TO SET GOALS

- ✓ Put your goal in writing.
- ✓ Set a time limit on reaching your goal.
- ✓ Be accurate in your goal, and make your progress measurable.
- ✓ Review your goals every morning and night.
- ✓ Set smaller, achievable goals along your timeline to your final goal.
- ✓ Tell others your goals and enlist their help in keeping you focused.

“If you have a big goal, set smaller goals along the road to reach it. Achieving smaller goals helps build your confidence and experience.

“I set up my goals and talk to my Uplines. I show them my plan and ask them to help me achieve it. They help me focus and give me clear direction on reaching for my goals.

“I encourage my Downlines to do the same, and help them set targets. I always tell them that to become successful, you have to set a target first. Having a target, helps you maintain clear focus on the direction you want to go. When they reach their targets, as their Upline, I recognize and encourage them to go for greater goals. For myself, I want all my team members to reach their life targets with E. EXCEL, to gain health, wealth, and the free time to enjoy it all.”

I want all my team members to reach their life targets with E. EXCEL, to gain health, wealth, and the free time to enjoy it all.

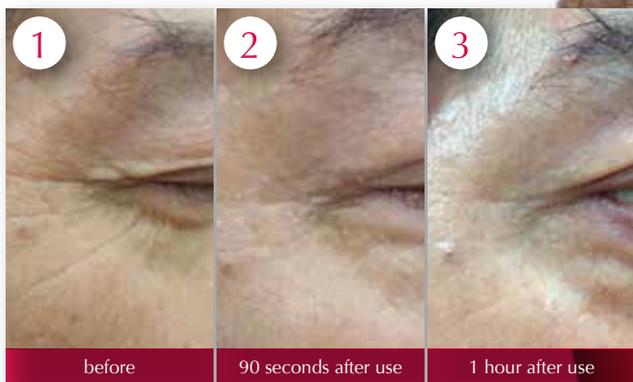

“When I joined E. EXCEL, I started from zero to learn about E. EXCEL and NI. With the right attitude, I changed myself and changed my life. Now I live a richer, more rewarding life filled with purpose. To all E. Excellers, I say, ‘If you want to achieve a dream, don’t ever give up. If you work hard, you will eventually make your dream come true. If I can do it, you can do it, too!’”

Why *look* your age when you don't *feel* your age?

Rejuvenate your complexion and get rid of those fine lines and wrinkles that make you look older than you feel! Perfluorocarbons in *Elemente Youth Rejuvenator Facial Moisturizer* help you do just that.

- Skin looks brighter because of better oxygen supply to cells
- Fine lines disappear due to skin volume increase of 10%-15%
- Deeper lines diminish thanks to relaxation of forehead muscles
- Fast, visible, long-lasting results!

E. EXCEL: COMMITTED TO YOUR SAFETY

E. EXCEL products have maintained their high quality and safety for nearly 30 years. In addition to in-

detailed tests on every aspect of production. From the selection of raw materials, production

including E. Coli, Salmonella spp., mold, and more.

Heavy Metals

Tests for dangerous heavy metals like lead and mercury.

Pesticides

Tests all raw materials for pesticides.

Poisons

E. EXCEL tests for a staggering 1,822 poisons, narcotics (e.g. cocaine), steroids (e.g. cortisone), banned drugs (e.g. Fenfluramine), and human growth hormones.

Microscopic Testing

E. EXCEL conducts laboratory tests on raw materials for foreign objects like dust, hair, and wire.

Finished Product Testing

E. EXCEL tests finished, packaged products for foreign objects such as metals, glass, plastic, stones, and hair, and removes products with incorrect weights.

Stability Testing

E. EXCEL conducts strict tests on the

stability of finished products to ensure that quality remains through the expiration date on the label.

Unique Specific Tests

E. EXCEL conducts unique tests on specific ingredients, including:

- Soy – E. EXCEL makes sure the soy is not genetically modified
- Honey, Royal Jelly, Pollen – for the presence of antibiotics, which would eliminate it from use

house testing, E. EXCEL also sends its raw materials and products to independent third-party laboratories for testing.

Multiple Safety Tests

E. EXCEL conducts

processes, finished products, and packaging, E. EXCEL ensures products are safe by conducting tests such as:

Microorganisms

Comprehensive tests for microorganisms,

E. EXCEL: Made in the USA Using Good Manufacturing Practices

- The USA does not issue GMP (Good Manufacturing Practices) certificates.
- Instead, the US Food and Drug Administration adopted GMP as their regulatory authority.
- Facilities in the USA must meet the GMP regulations or be shut down.
- The FDA inspects US manufacturing facilities frequently and randomly to ensure they follow GMP.
- E. EXCEL has been manufacturing products in the USA for the past 29 years without interruption because of the Good Manufacturing Practices we follow.

- c. Melamine – melamine has never been detected in E. EXCEL products
- d. Sulfur – sun-dried ginseng and *Angelica sinensis* are tested for the presence of sulfur dioxide residues

We take pride in our product safety record for nearly 30 years. Our number one goal is to provide safe and hygienic products made in the USA, for you and your loved ones to enjoy !

Careful Selection of Packaging Material

Only packaging materials that meet international safety standards, remain stable, and do not affect contents are used.

A SAFE, CLEAN PRODUCTION ENVIRONMENT

HUMIDITY

Humidity control systems in production and storage areas help keep foods safe from bacteria and lengthen shelf life.

DUST

Air purification systems minimize dust.

TEMPERATURE

We ensure stable temperatures for product quality.

BACTERIA

Ultraviolet systems disinfect and kill airborne bacteria.

WATER

Independent water purification systems distill water used.

AUTOMATED PRODUCTION

Reduces human contact during food production for hygiene and product safety.
