

PEARL™

Enhance Health and Beauty

Benefits

- Maintain Youthful Skin, Nails, Hair and Bones
- Contributes to Improved Mood and Tranquility
- Supports the Kidneys and Fluid Balance
- Soothes the Liver
- Contributes to a Youthful Appearance
- Cleanses the Body and Mind

Our appearance on the outside is a strong indication of our health on the inside. Stress, lack of rest, nutrient deficiencies and absence of antioxidants and phytochemicals in our diet affect not only our appearance, but our overall health and vitality. *Pearl*™ combines nutrient-rich, soothing and rejuvenating ingredients to naturally enhance health and beauty.

How PEARL™ Works

Minerals make up our bones, help maintain muscle mass and function, contribute to skin elasticity and build strong hair, teeth and nails. To properly absorb and utilize minerals, our blood and tissues must maintain a balanced pH and our kidneys must regulate mineral and fluid balance throughout the body. *Pearl*™ helps regulate pH, build strong bones and maintain skin elasticity. Herbs in *Pearl*™ have been shown to support the kidneys and proper fluid balance. Others help protect and revitalize our appearance by reducing damaging free radicals caused by mental and emotional stress. As a bonus, adaptogens and harmonizing ingredients regulate hormones and improve circulation, affecting skin tone, clarity of the eyes and healthy hair and nails.

Nutritional Immunology Formulation

Pearl's key ingredient—water-soluble pearl powder—may be invaluable for promoting mental and emotional health, in addition to enhancing appearance and improving integrity of skin, muscle and bone structure. Plus, *Pearl*™ contains a blend of herbs that contain phytochemicals and polysaccharides that calm and soothe the nervous system and harmonize functions of the endocrine system to help minimize the physical effects of mental and emotional stress. Finally, *Pearl*™ includes adaptogenic herbs and bee pollen to help normalize digestion and circulation and increase vital energy.

E. EXCEL Nutritional Immunology® Whole Food Concentrates

E. EXCEL Nutritional Immunology®, a science pioneered by world-recognized immunologist and microbiologist, Dr. Jau-Fei Chen, PhD, advocates supporting the immune system with a healthy, whole-foods diet. After years of research in Oncology and Immunology, Dr. Chen found that the best defense against life's most common health risks is to build a healthy immune system through smart lifestyle choices where whole plant foods play a vital role.

Herbal Whole Food Concentrates

E. EXCEL's whole food concentrates are Nutritional Immunology formulations available in convenient capsules for swallowing. Or, open them and consume them in a tea or with a meal—making it that much easier to make sure you are eating a wide variety of healthy plant foods.

Our unique concentrates deliver optimal levels of the polysaccharides, antioxidants and phytochemicals found in whole plant foods—not isolated elements that support vitamin and mineral claims. We start with premium quality ingredients, grown and harvested in conditions that yield the highest levels of immune-supporting compounds. Then we prepare our ingredients with only water—no harsh chemicals. We use freeze-drying to help preserve the energy stored as plant enzymes in our ingredients.

Taken according to the directions on the label, they are safe for all ages, should not cause harmful side effects and pose no risk of "accidental overdose" because their ingredients are whole foods.

Immune System Support

Every major organ system in the body relies on the immune system to defend it around the clock from viruses, bacteria, parasites and allergens—as well as free radicals, DNA damage, insulin resistance and the aftermath of inflammatory responses. The better the immune system does these jobs, the healthier we are. Each E. EXCEL whole food concentrate supports functions of specific body systems by balancing the immune system's activity or "energy" in that system. Ultimately, if used properly along with other healthy lifestyle choices, each E. EXCEL Nutritional Immunology® whole food concentrate brings balance to the body, both mentally and physically, resulting in reduced health risks and a better quality of life.
