

# The Essence of Time®

## Plant Essences

Growing old is inevitable, but staying healthy and maintaining beauty is possible at every stage of life. The Essence of Time has combined some of nature's most unique ingredients, cactus fruit and rose. These vital ingredients provide the human body with natural phytochemicals and antioxidants to help improve skin structure, creating a more radiant appearance.

Research has revealed that cactus fruit has the amazing ability to speed up wound healing, make the skin softer, prevent dryness and smooth fine lines, because the cactus fruit is rich in antioxidants, riboflavin and thiamin (vitamin B<sub>1</sub>), making it ideal for moisturizing and maintaining the skin's youthfulness. In addition, cactus fruit boosts the production and spread of normal human fibroblasts (skin cells) in the body, which is helpful for both skin health and skin repair.

Like cactus fruit, rose also contains essential nutrients that contribute to great skin. In fact, rose buds contain fifty times more vitamin C than lemon. Its nutrients also help to heal wounds.

The Essence of Time combines cactus fruit with rose to provide a rich source of plant nutrients such as phytochemicals and antioxidants. Consuming The Essence of Time on a regular basis can help improve health and maintain a healthy glow. The Essence of Time is non-stimulating and does not contain caffeine.

The Essence of Time comes in a carton of six 140 ml Cheer Packs.

## E. Excel Nutritional Immunology®

### Prevention Over Cure

### Plant Essences

E. Excel's *Plant Essence* beverages reveal the essence of nature in its purest form, combining some of the earth's greatest gifts with cutting edge technology to bring you a revolutionary line of products.

#### *The Ingredients*

We combined some of Mother Nature's most unique treasures, harvested at the pivotal time for optimal nutritional content, to create the *Plant Essence* line. With fortifying phytochemicals and other essential nutrients, they help give your body the nutrition it needs to maintain optimal health, boost energy and fight off free radicals. The *Plant Essence* line is made with all natural ingredients and contains no preservatives, caffeine or other stimulants and will produce no harmful side effects.

#### *The Packaging*

To package these unique products, we again use only the best materials—an advanced fluid container called Cheer Pack. Patented in Japan, the Cheer Pack film, a laminate consisting of four layers of plastic and aluminum foil, ensures the safety and stability of the content. This innovative container is airtight and microbial free, so the contents need no preservatives. It also blocks sunlight, is easily stored, environmentally smart and completely non-toxic. E. Excel has invested in state-of-the-art machinery and isolated packaging facilities to provide the best product quality available.

#### *The Convenience*

You can drink the *Plant Essence* products right out of the package—no measuring spoon or glass is needed. These beverages are also lightweight, leak-proof and the twistable cap makes them easy to re-close, so you can drink half and save the rest for later. The *Plant Essence* beverages are ideal for someone on the go who isn't willing to sacrifice much-needed nutrients.

E. Excel brings you a line of nutritious, delicious, ready-to-drink beverages in a high-tech package. *Plant Essence*—Nutrition made simple.
