

# OXYGINBERRY®

**Supports Healthy Hair, Skin and Nails  
and Provides Antioxidants**

## Benefits

Maintains Young-looking Skin, Nails and Hair  
Contributes to a Youthful Appearance  
Helps Fight Oxidative Stress

Our appearance on the outside is a strong indication of our health on the inside. Stress, lack of rest, nutrient deficiencies and absence of antioxidants and phytochemicals in our diet affect not only our appearance, but our overall health and vitality. *Oxyginberry*® combines nutrient-rich, rejuvenating and supportive ingredients to naturally enhance health and beauty both inside and out.

## How *Oxyginberry*® Works

Plentiful antioxidants in grape seed extract, ginseng berry, and cactus fruit help fight oxidative stress in the body, supporting vital organs like the heart and liver. Abundant vitamin C in rose is also a powerful antioxidant, while seaweed concentrates all of the ocean's nutrients in perfect balance, providing one of the richest sources of minerals, trace elements, amino acids, antioxidants, polysaccharides and enzymes found anywhere in nature. Seaweed also contains B-complex vitamins and vitamins D, E and K. Charged minerals and trace elements ionize and help rejuvenate cells and connective tissue, and stimulate collagen synthesis and cellular turnover. It is perfect for the body and skin.

Nutrients and minerals in cactus have remarkable effects on the skin. The older the cactus is, the more valuable its nutrients become. However, cactus can take decades to become fully grown and must be processed with care. With regard to hydrating abilities, few plants can match the cactus. The cactus keeps precious moisture and nutrients locked inside. Scientists believe that cactus contains essential nutrients that provide excellent nourishment to both the body and skin.

## Nutritional Immunology Formulation

*Oxyginberry* may be invaluable for enhancing appearance and improving integrity of skin, hair and nail structure. Plus, it contains a blend of plants that contain phytochemicals and polysaccharides that support and nourish the internal organs for health and vitality on the inside that translates into beauty on the outside.

## E. EXCEL Nutritional Immunology® Wholefood Concentrates

E. EXCEL Nutritional Immunology®, a science pioneered by world-recognized immunologist and microbiologist, Dr. Jau-Fei Chen, PhD, advocates supporting the immune system with a healthy, whole-foods diet. After years of research in Oncology and Immunology, Dr. Chen found that the best defense against life's most common health risks is to build a healthy immune system through smart lifestyle choices where whole plant foods play a vital role.

## Herbal Wholefood Concentrates

E. EXCEL's wholefood concentrates are Nutritional Immunology formulations available in convenient capsules for swallowing. Or, open them and consume them in a tea or with a meal—making it that much easier to make sure you are eating a wide variety of healthy plant foods.

Our unique concentrates deliver optimal levels of the polysaccharides, antioxidants and phytochemicals found in whole plant foods—not isolated elements that support vitamin and mineral claims. We start with premium quality ingredients, grown and harvested in conditions that yield the highest levels of immune-supporting compounds. Then we prepare our ingredients with only water—no harsh chemicals. We use freeze-drying to help preserve the energy stored as plant enzymes in our ingredients.

Taken according to the directions on the label, they are safe for all ages, should not cause harmful side effects and pose no risk of "accidental overdose" because their ingredients are whole foods.

## Immune System Support

Every major organ system in the body relies on the immune system to defend it around the clock from viruses, bacteria, parasites and allergens—as well as free radicals, DNA damage, insulin resistance and the aftermath of inflammatory responses. The better the immune system does these jobs, the healthier we are. Each E. EXCEL wholefood concentrate supports functions of specific body systems by balancing the immune system's activity or "energy" in that system.

Ultimately, if used properly along with other healthy lifestyle choices, each E. EXCEL Nutritional Immunology® wholefood concentrate brings balance to the body, both mentally and physically, resulting in reduced health risks and a better quality of life.
