What is Oxyginberry?

Oxyginberry Complex was originally created by Dr. Chen for our Elemente skincare line. It is a blend of cactus, cactus fruit, ginseng berry, seaweed, rose and grape seed extract that is excellent for skincare. Dr. Chen also realized that the qualities that made Oxyginberry Complex so wonderful for skin also had amazing benefits when taken internally. She develop Oxyginberry Beverage from these six ingredients to support the organs of the body and the powerful antioxidants found in these ingredients. Oxyginberry Capsules brings new technologies to bear on the same ingredients to in capsule form.

What is the difference between Oxyginberry Capsules and Oxyginberry Beverage?

Both Oxyginberry Capsules and Oxyginberry Beverage contain essentially the same ingredients. Hence, if taken as instructed, both offer around the same amount of antioxidants, phytochemicals and polysaccharides, and the same benefits.

Oxyginberry Beverage may taste a little bitter to some due to its ginseng content. With Oxyginberry Capsules, E. Excellers can enjoy the wholesome goodness of Oxyginberry Beverage in capsule form anytime, anywhere.
