## THE SCIENCE BEHIND THE INGREDIENTS

**Peach** plays a part in the great herbal archives of the world. Modern herbalists use the entire peach to support overall wellness. Today, Chinese herbalists recommend the peach seed to help reduce inflammation.\*

**Safflower** is a wildflower which grows in open fields in many countries. It is named for its unique brightly colored yellow, orange and red colored blossoms. Safflower has been used as a Traditional Chinese herb for thousands of years to ease stiffness and bring comfort to joints.\*

**Asian ginseng root** or *Panax ginseng* has been used as an herbal remedy for centuries. It is used as a Traditional Chinese herb that is one of the most popular in the world. It has a long growing period and is known for its anti-inflammatory and antioxidant properties.\*

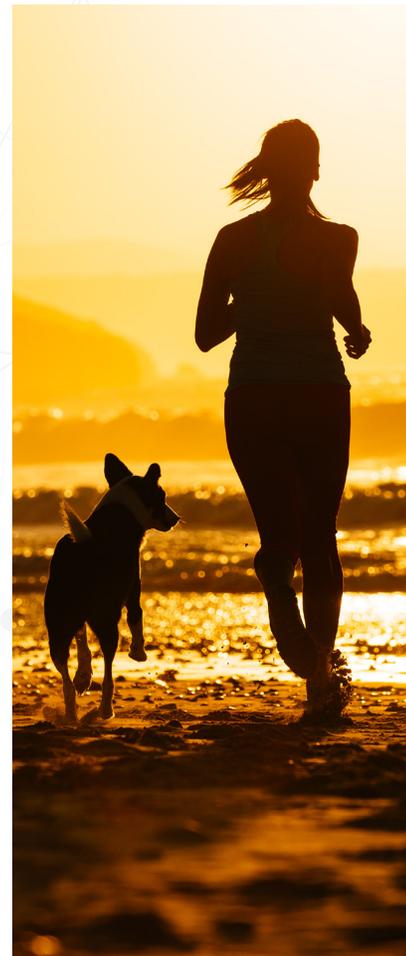

**Licorice root** is a wholesome flavorful food and has been used as an herbal tonic for thousands of years. Many of the oldest and most respected herbal writings record the use of licorice. Chinese herbalists often recommend licorice root for a variety of reasons. Licorice ranks second only to ginseng as the most important herb in Chinese herbalism. Licorice is known to exhibit anti-inflammatory properties.\*

**Chinese red date**, also known as jujube, has been used by Traditional Chinese herbalist for centuries. Chinese red date has been cultivated since 9000 BC. It is known to support liver function to help cleanse the body.\*

**Chinese lovage root** have been found by scientists to be a natural diuretic and is known to cleanse the body of excess fluid. Chinese lovage or *Ligusticum sinense* is a delicate leafy green plant with purple stems. Japanese scientists have found *Ligusticum sinense* has anti-inflammatory effects.\*

## QUESTIONS & ANSWERS

**Q** Why should I take ART™?

**A** The botanicals found in ART™ help support the body's normal anti-inflammatory response, healthy joints and overall wellness. Scientists have found strong research on: peach seed, safflower, Asian ginseng, licorice root, Chinese red dates, and Chinese lovage to support these functions. These wholesome ingredients are exceptionally good at supporting your body's natural inflammatory responses.\*

**Q** What companion products should I take with ART™?

**A** G-ART® is a great companion product to take with ART™. G-ART® helps promote ease of motion, flexibility and contains unique wholesome-food ingredients: Japanese kelp, ginger, alfalfa, parsley, acerola cherry, spinach and prickly pear cactus. ART™'s Natural Anti-inflammatory Blend combined with G-ART®'s Mobility Blend offers a rich variety of botanicals to support an active lifestyle.

In addition, E. EXCEL's signature products include Celebration™, Millennium®, Millennium® Red, Millennium® Powder, Millennium® Gold, Poly5®, Daily Nutrition Capsules and toTHINK™.\*

**Q** How quickly can I expect to experience beneficial effects from taking this product?

**A** Please remember that our products are not drugs, nor are they a replacement for drugs and are not meant to treat, cure or prevent disease. Our products contain wholesome food ingredients, which support a safe and gradual but significant change, without drug-related side effects. As part of a healthy lifestyle, the results you desire may occur gradually. We encourage you to use our products together with the four pillars of health taught in the science of Nutritional Immunology, which empowers people to improve their lifestyle by: (1) making balanced wholesome food choices, (2) staying positive and happy, (3) exercising daily, and (4) getting sufficient sleep.

**Q** Will this product interact with any of my medications? Should I take it if pregnant, nursing, or have any health issues?

**A** While these products contain wholefood botanicals and natural ingredients, as with any changes to diet or lifestyle, you should consult your doctor before using. If you are pregnant, breastfeeding, or have any health issues, we encourage you to check with your health care professional before use.
