

MILLENNIUM® RED

• **Featuring Wholesome Plant Foods** •

Cacti have a treasure trove of nutrients beneath their rugged exterior, helping them survive harsh and barren deserts. **Millennium® Red** contains a unique blend of the same prickly pear cactus found in Millennium® and Celebration™. **Millennium® Red** is for those with special dietary needs or allergies to bee products. Natural orange and lemon provide a satisfying flavor for this delicious beverage mix. Made from hand-picked cactus and filtered to remove irritating components, **Millennium® Red** is carefully packaged into convenient, patented, high-quality cartons to preserve freshness without preservatives.

The Science

Behind The Ingredients

Prickly Pear Cactus Pad, despite its prickly exterior, has soft and succulent flesh and is very rich in phytochemicals and minerals. It is very important to choose the right species and right parts of the cactus. Processing must take place immediately after the gel has been extracted from the cactus to produce the purest and most delicious extract possible. Even the harvesting hour can be critical. Research shows that it is best to harvest cactus pads earlier in the day, because the acidity is the lowest at that time, which is better for health. During the last decade, growing interest in cactus has resulted in many scientific studies regarding the composition and bioactivity of cactus and cactus compounds. The world is just now beginning to wake up to the benefits of prickly pear cactus pad!*
