

# Vision™ **Helps support eyes and vision\***

TARGETED BODY SYSTEMS: OVERALL WELLNESS, EYES, VEGAN-FRIENDLY\*

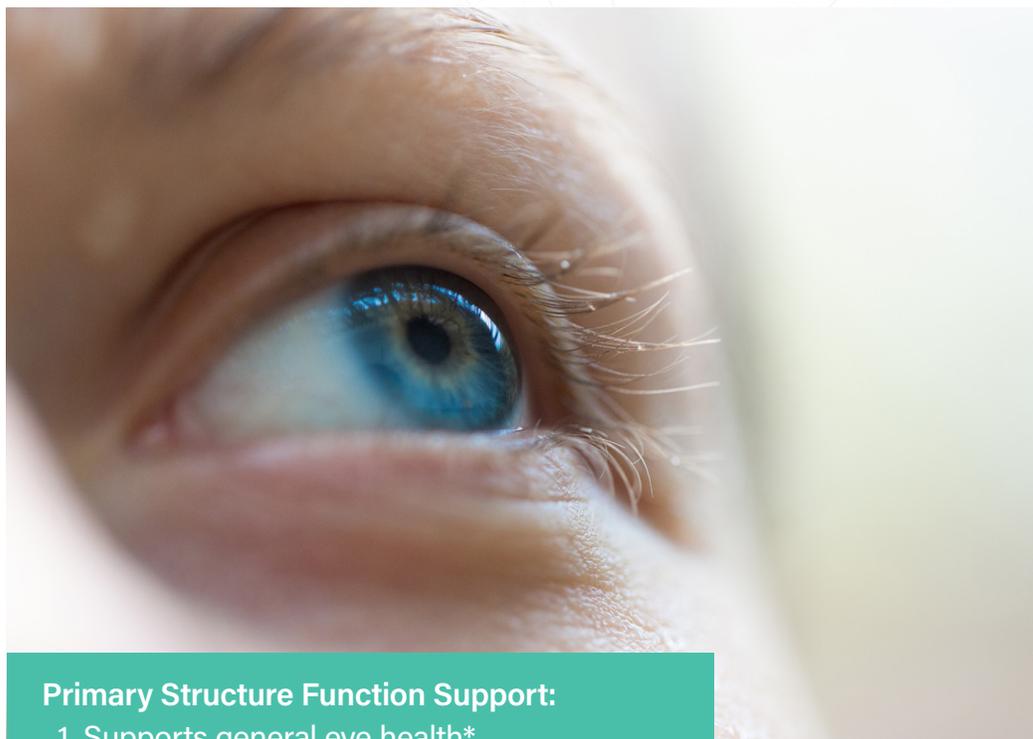

Eyesight is one of our most important senses. 80% of what we perceive comes from the sense of sight. In fact, a larger part of the brain is dedicated to vision than to hearing, taste, touch and smell combined. The eyes can capture and interpret more than one-million pulse signals per millisecond and transmit them to the brain. Yet, many of us take our eyesight for granted. This unique botanical Clarity Blend combines grape seed and *Cassia tora* which may provide the needed support for eyes and vision. OPCs found in grape seeds and flavonoids in *Cassia tora*, offers an extra measure of support for healthy eyes. Vision™, when taken on a daily basis, delivers these two essential ingredients which may help to support the integrity of the retina and cornea of the eye.\*

CASSIA TORA SEED

GRAPE SEED

<b>Supplement Facts</b>		
Serving Size: 2 Capsules		
Servings Per Container: 30		
	Amount Per Serving	% Daily Value
Clarity Blend*	720 mg	
<i>Cassia tora</i> Seed		†
Grape ( <i>Vitis vinifera</i> ) Seed		†

† Daily Value not established.

Plant Fiber Capsules

60 Capsules | Code: 20000

- Primary Structure Function Support:**
1. Supports general eye health\*
  2. Grape seeds contain OPCs for normal anti-inflammatory response and healthy vision\*
  3. Helps the body combat free radical scavenging\*
  4. Helps support the integrity of the retina and cornea of the eye\*

# Vision™ Helps support eyes and vision\*

## THE SCIENCE BEHIND THE INGREDIENTS

The grape plant is a perennial and deciduous woody vine. The fruit of the grape plant is the most commonly eaten part of the plant. Food markets today include a wide variety of grapes. The most popular variety is the seedless grape. However, choosing seedless grapes means missing out on a very important type of phytochemical in **grape seed**: oligomeric proanthocyanidins (OPCs) which defend against free radicals and oxidative damage. OPCs may help in maintaining eye health.\*

**Cassia tora's** Chinese name is jue ming zi which means "Bright Eyes." Cassia tora is a Traditional Chinese herb that is used to support eye health. Cassia tora may also help with the normal cleansing and refreshing of the liver. According to Chinese herbalists, there is a strong relationship between the health of the liver and the health of the eyes.\*

# Vision™ Helps support eyes and vision\*

## QUESTION & ANSWERS

### **Q** Why should I take Vision™?

**A** Vision™ is formulated with grape seeds which contain OPCs or oligomeric proanthocyanidins, and cassia tora seeds which contain bioflavonoids that have been researched extensively for their benefits to support and maintain eye health. OPCs and flavonoids are particularly important in supporting the integrity of the retina and cornea. The tiny cells in your eyes are bombarded by thousands of free radicals every day. While many foods we eat contain small amounts of flavonoids, they are not as common as they should be in most Western diets. Therefore, consuming botanical ingredients containing bioflavonoids like cassia tora seeds and grape seeds can offer an extra measure of antioxidant support for eye health.\*

### **Q** How are E-View™ and Vision™ companion products?

**A** Vision™ is formulated to help support normal healthy vision and to help fight free radicals. E-View™ is designed to extend these benefits to other aspects of eye health such as supporting those who experience excessive screen time, extended time in unprotected bright sunlight, and night blindness. E-View™ also supports normal tear production and overall health and wellness. We recommend taking both Vision™ and E-View™ for maximum support of one of your most valuable senses—your vision.\*

### **Q** How quickly can I expect to experience beneficial effects from taking this product?

**A** Please remember that our products are not drugs, nor are they a replacement for drugs and are not meant to treat, cure or prevent disease. Our products contain wholesome plant food ingredients, which support a safe and gradual but significant change, without drug-related side effects. As part of a healthy lifestyle, the results you desire may occur gradually. We encourage you to use our products together with the four pillars of health taught in the science of Nutritional Immunology, which empowers people to improve their lifestyle by: (1) making balanced wholesome food choices, (2) staying positive and happy, (3) exercising daily, and (4) getting sufficient sleep.\*

### **Q** Will this product interact with any of my medications I may be using? Should I take it if pregnant or nursing?

**A** While these products contain wholesome food botanicals and natural ingredients, as with any changes to diet or lifestyle, you should consult your doctor before using. If you are pregnant or breastfeeding, we encourage you to check with your health care professional before use.
